According to the MSCI Global Investable Market Indexes (“**MSCI GIMI**”) Methodology (“**Methodology**”) published by MSCI in August 2016, the securities of companies disclosed as having high shareholding concentration in the SFC Announcements are not eligible for inclusion in the MSCI GIMI. The securities of such companies will remain ineligible for inclusion in the MSCI GIMI until sufficient public disclosure has been made by the issuing companies confirming an increase in free float that results in a Foreign Inclusion Factor (“**FIF**”) equal to or larger than 0.15, following the publication of the SFC Announcements. It is understood that companies the securities of which are eligible for inclusion in the MSCI GIMI have to meet the minimum free float-adjusted market capitalization, which is defined by MSCI as FIF times the market capitalization of the relevant company. The Company has based on the results of the Inquiries, classified its shareholders into two types, namely strategic shareholders (i.e. non-free float) and non-strategic shareholders (i.e. free float) according to the Methodology. The Company’s self-assessment of its free float shareholdings, FIF and free float-adjusted market capitalization is summarized and disclosed as below:

Together with the announcements of the Company dated 18 February 2016, 12 July 2016, 19 August 2016, 15 November 2016 and 22 February 2017, it further demonstrates that the diversified shareholding structure of the Company has continuously existed for a period of time. The

high concentration of shareholding in the Company as at 10 September 2012 as stated in the 2012 Announcement is no longer valid and should not be used as a basis to evaluate the current status of the shareholding structure of the Company.
